

CWA TRAINING – THROUGH DISCONNECTED EYES!

The California Workforce Association (CWA) and Robbin and Associates are sponsoring three training sessions in October 2016 titled “Through Disconnected Eyes.” The trainer will be Larry Robbin, Executive Director of Robbin and Associates.

Many of the challenges related to serving disconnected youth come from the fact that workforce development staff do not always know what disconnected youth hope to get from the programs offered to them. This training is designed to close this gap by using input gathered from hundreds of disconnected youth about what they want from workforce development programs. The audience for this workshop is managers and staff that develop and deliver all types of youth employment programs.

The training session fee is \$99 per person. To view the [agenda](#) and register for the sessions listed below, go to calworkforce.org:

- Friday, October 7, 2016 – Fresno
- Wednesday, October 12, 2016 – Los Angeles
- Tuesday, October 18, 2016 – Sacramento

Please contact CWA at calworkforce.org if you have questions regarding this training.
