Disaster Unemployment Assistance now available to workers impacted by winter storms in San Mateo County

Eight other California counties also eligible for disaster unemployment benefits

SACRAMENTO – San Mateo County workers who have been impacted by the severe winter storms, flooding, landslides, and mudslides that started on December 27, 2022, are now eligible to file for federal Disaster Unemployment Assistance (DUA) benefits, joining workers [in eight previously-announced California counties](#).

The California Employment Development Department (EDD) administers these benefits, which are available to workers, business owners, and self-employed individuals who lost their jobs or businesses, or had their work hours reduced due to impacts brought about by the severe storms.

The Federal Emergency Management Agency (FEMA) has determined that individuals who lost work or self-employment as a direct result of impacts caused by ongoing severe storms in the identified counties are now eligible to apply for federal DUA benefits. The FEMA approval is for FEMA designated disaster area 4683-DR.

DUA applies to losses beginning the week of January 1, 2023 for claimants impacted by the storms. Eligible full-time workers can receive between \$166 and \$450 a week in benefits for a maximum period of 28 weeks. Part-time workers may also be eligible for benefits. The last payable week of this emergency benefit ends July 15, 2023.

DUA benefits are offered to victims of a federally-declared disaster and are available to individuals who meet any of the following criteria:

- Worked or were a business owner or self-employed, or were scheduled to begin work or self-employment, in the disaster area. This includes, and is not limited to, those in the agricultural and fishing industries.
- Cannot reach work because of the disaster or can no longer work or perform services because of physical damage or destruction to the place of employment as a direct result of the disaster.
- Cannot perform work or self-employment because of an injury as a direct result of the disaster.
- Became the head of their household because of a death caused by the disaster.

Individuals must have applied for and used all regular unemployment benefits, or do not qualify for regular unemployment benefits and remain unemployed as a direct result of the disaster. Also, the work or self-employment they can no longer perform must have been their primary source of income.

Applications for DUA benefits must be filed by applicants in **San Mateo County** by March 2, 2023, unless the individual has good cause to file a late application. Claimants from **Calaveras County** must file by February 27, 2023, and individuals who file claims from **Sacramento, Merced, Santa Cruz, Monterey, San Luis Obispo, Santa Barbara, and San Joaquin** counties must file their DUA applications by February 22, 2023.

| County | DUA Filing Deadline |
|---|---------------------|
| Sacramento, Merced, Santa Cruz, Monterey, San Luis Obispo, Santa Barbara, and San Joaquin | February 22, 2023 |
| Calaveras | February 27, 2023 |
| San Mateo | March 2, 2023 |

In addition, to receive DUA benefits, all required documentation must be submitted within 21 days from the day the DUA application is filed. Required documentation includes the most recent federal income tax form or check stubs, or other documentation to support that the individuals were working or self-employed when the disaster occurred. Documentation for the self-employed can be obtained from banks, government entities, or affidavits from individuals having knowledge of their business.

EDD is required to first check to see if the applicant is eligible for regular state provided Unemployment Insurance benefits before processing the claim for DUA benefits. The fastest and easiest way for new claimants to apply for DUA is to use EDD's [UI Online application](#), which is available in both English and Spanish.

Applicants can also get assistance at local job centers and Local Assistance Centers or Disaster Recovery Centers.
