

Planning Phase Draft Guidelines Public Workshops

Community Economic Resilience Fund Program (CERF)

In April 2022, the CERF Leadership Team will release the Planning Phase Draft Guidelines for another round of input through public workshops hosted throughout April and May. The workshops will: help explain the guidelines updates since the last round of public comment; provide a space to collect feedback; and include an opportunity to network with interested entities in your CERF region.

CERF staff will host four CERF Planning Phase Draft Guidelines Public Workshops. The regional groupings for workshops are only for the purpose of facilitating relationship building, and have no other implications for the program.

If you have any questions, please email us at just-transition@opr.ca.gov or visit the [Governor's Office of Planning and Research's CERF webpage \(opr.ca.gov\)](http://opr.ca.gov).
