I. Overview

The Employment Development Department (EDD), in coordination with the California Labor and Workforce Development Agency (LWDA), is pleased to announce the availability of up to \$1 million in California State General Funds for the Evaluation and Technical Assistance (ETA) of the Displaced Oil and Gas Worker Fund (DOGWF). The DOGWF ETA PY 23-24 awardee will be responsible for providing technical assistance and evaluation for DOGWF PY 23-24 program awardees as they pioneer initiatives that guide displaced oil and gas workers into new jobs and career paths. Our mission goes beyond individual sectors, with a firm commitment to securing stable, well-compensated, and gratifying roles for these workers across diverse industries.

A. Background

The DOGWF PY 23-24 program grant and the DOGWF ETA will address the needs of displaced workers in the oil and gas sector. This initiative aims to support these workers in transitioning into industry sectors that match their skills and expertise and offer comparable wages. DOGWF program awardees will act as lead organizations if proposals include consortia or multiple partnerships and will assist with disseminating funds to partner programs, ensuring program goals, working closely with EDD project managers, and providing program updates as needed. The grant encourages collaborations among educational institutions, labor unions, employers, workforce intermediaries, and community-based organizations to achieve the program's objectives. Program awardees and their networks of partners will work together to create employment and training services programs designed to prepare displaced oil and gas workers for new occupations. The DOGWF's primary focus is not just to provide training and job opportunities but to support displaced workers in their transition to new roles that are stable and offer growth potential.

B. Purpose

The DOGWF ETA PY 23-24 grant aims to enhance the effectiveness and sustainability of DOGWF projects. The initiative seeks to fund an organization with expertise in assessing program and operational capacity, facilitating Communities of Practice (CoPs), conducting a developmental evaluation for continuous learning and improvement, and addressing the needs of displaced workers impacted by energy sector shifts for future policy and program planning. In addition, the ETA awardee will support program grantees with developing and implementing strategies for partnership development, participant assessment, skills transfer, career navigation, administering training stipends, providing wrap-around support, identifying relevant career pathways and training programs, and guidance on participant tracking and performance outcomes reporting.

The DOGWF ETA PY 23-24 awardee ("ETA awardee") will closely coordinate with DOGWF program grant recipients, EDD project managers, and other key stakeholders. The primary focus will be ongoing coaching and consultation, offering targeted technical assistance, and building a collaborative community of practice for ongoing learning and continuous improvement. The ETA provider will also assist program grantees in developing strategies and building capacity to

provide participants with training stipends. The applicant does not need to provide all the services directly; contracted partners may deliver specific components.

Main deliverables will include: (1) identifying viable career pathways for oil and gas occupations into new occupations, (2) creating and/or identifying tools for assessing transferrable skills so that they can be documented/certified and marketed to new employers, (3) identifying training programs and methodologies that led to successful re-employment, (4) identifying and developing best practices for participant recruitment and consistent engagement, (5) establishing roles of organized labor, displaced employers, and new employers in establishing career pathways, uplifting transferrable skills, and minimizing harm from job loss, and (6) crafting a learning agenda and framework for development evaluation and continuous improvement.

In collaboration with workforce and education partners, project stakeholders, and the EDD, the ETA awardee will be responsible for creating and documenting a robust framework that not only supports the immediate transition of displaced oil and gas workers into new roles but also serves as a blueprint for similar work in the future. The ETA will involve sharing best practices for skills assessment and skills transfer, successful training, the establishment of sustainable employer partnerships, and the demonstration of the value of stipends during training as contributing to training and employment success.

C. Goals and Objectives

The ETA awardee will assist program awardees in achieving positive outcomes by providing ongoing guidance, technical assistance, training, and stakeholder coordination support that will help projects expand workforce opportunities for oil and gas workers in accordance with the goals of the DOGWF PY 23-24 program SFP: Workforce and Economic Development, Equitable Transition, and Partnerships and Collaboration.

The ETA awardee should leverage existing best practices and develop new tools as needed to support program awardees in achieving positive employment outcomes for participants. The ETA awardee will host conference calls, webinars, CoP, and other technical assistance, training, and coordination activities as needed. This will require the ETA awardee to develop additional means of effective communication, idea-sharing, mentoring among program awardees, and individual program consultation. Applicants must demonstrate how to provide an accessible virtual forum for cross-project communication during meetings with program awardees and beyond. The ETA awardee will develop key questions for learning and evaluation and tools for continuous learning, including critical metrics and milestones to be tracked for immediate course correction and program improvement.

DOGWF ETA goals and objectives are as follows:

- Offer targeted technical assistance to enhance project implementation and outcomes.

- Strengthen both organizational and program development and implementation capacity within DOGWF program recipients.
- Drive systemic innovation by forming alliances with educational institutions, employers, unions, and community groups.
- Disseminate proven strategies and elevate regional workforce performance by promoting collaboration among program operators.
- Develop staff capacity for coordinated case management within and across organizations, including cross-training with relevant partners.
- Support the awardees in using best practices in providing stipends.
- Identify key learning questions, develop an evaluation framework, and track metrics to evaluate the impact of program components on participant success, including supportive services, career navigation, training, job placement, job retention, and career advancement.

II. Project Design

Proposals must reflect an innovative ETA plan to achieve the above project goals and objectives. Applicants may create new tools, borrow methods from other disciplines, or apply models from other TA programs and program evaluations to achieve the desired outcomes. Successful applicants will present creative plans to provide program consultation, training, team building, knowledge sharing, learning, and utilizing technological resources to meet the program-related requirements and support strong participant outcomes from DOGWF projects.

The ETA awardee will provide project awardees with ongoing feedback as a developmental tool for quality improvement, innovation, and sustainability. Strong applicants will demonstrate the capacity to provide individualized assistance based on the in-demand industry sectors, DOGWF program strategies, outcome data collection tools and processes, each program awardee's needs, and the unique barriers of the geographic regions and target populations being served to utilize the strategies and required activities outlined below.

The ETA awardee will design an ETA project that will:

- Provide technical assistance and capacity building through consultation and a community of practice to refine program planning, support successful execution, and deliver results.
- Conduct research on best practices and provide consultation on skills assessment, skills transfer, certification, referrals to and delivery of training, as well as case management and support services.
- Conduct research and provide consultation on best practices in administering training stipends. The applicant may develop tools and systems to be used by program grantees.
- Develop shared tools for tracking participant progress and program outcomes; provide consultation on program and fiscal reporting.

- Build the capacity of DOGWF recipients for partnership development, employer partnerships, and connections to public systems for workforce services, education and benefits, and income support.
- Develop an evaluation of programs through articulating a shared learning agenda, evaluating progress, and addressing challenges through program improvement and innovation.

A. ETA Strategies and Required Activities

The ETA awardee will facilitate learning and connectivity among program awardees and conduct stakeholder coordination as follows:

- Coordinating technology-enabled training for awardees on topics relevant to their needs.
- Creating and supporting a learning community for ongoing innovation and quality improvement.
- Convening regularly scheduled CoPs, including project awardees, partners, and relevant stakeholders.
- Sharing identified best practices and other lessons learned between funded program awardees with a combination of written materials, webinars, trainings, and CoPs, open to project awardees, project partners, and relevant stakeholders.
- Coordinating and facilitating virtual and/or in-person convenings.
- Assisting with developing and/or refining partnership structures and assessing each partner's organizational capacity.
- Providing support to project awardees with local and/or regional stakeholder engagement and coordination, including assistance with defining or refining roles and responsibilities among project awardees, funded project partners, and other local/regional stakeholders engaged in service provision to the target populations.
- Developing partner meetings and referral and recruitment networks.
- Establishing integrated service delivery or co-case management strategies and encouraging cross-training.
- Provide assistance and guidance on strategies to improve the connectivity of partnership networks that will strengthen regional responses to future industry shifts and layoffs.

The ETA awardee will provide guidance, technical assistance, and training support to DOGWF-funded projects as follows:

- Providing individual program consultation for continuous learning and program improvement, including ongoing engagement, coaching, consultation, and support.
- Providing real-time feedback to program awardees to achieve program outcomes and implement new strategies, measures, and actions as goals emerge and evolve.
- Addressing individual project challenges and identifying when alternative methods are needed to accomplish project goals or when there is a need to adjust goals.

- Scheduling office hours to assist program awardees to ensure individual project needs are met.
- Coordinating training on relevant topics for program awardees.
- Assisting with closing service gaps by recommending changes to program service delivery models and helping program awardees implement any actionable items resulting from TA recommendations.
- Coordinating with the EDD to ensure technical assistance and training provided to program awardees are in alignment with allowable activities, project goals, and data collection and reporting requirements.
- Assisting program awardees with identifying industry layoff trends, regional impacts, impacted employers, and dislocated workers and applying findings to program strategies and activities.
- Assisting program awardees in effectively collecting and utilizing participant data.
- Provision of other technical assistance, training, and support needed, as identified by ongoing review of project activities and program evaluation efforts. Providing assistance and guidance in developing sustainability plans to ensure ongoing access to industry-specific, strategic employment services and support for future dislocated oil and gas workers beyond the program performance period.

The ETA awardee will disseminate best practices and learnings from this program to the broader workforce system. Potential methods may include but are not limited to (1) creating a toolkit for assessing transferable skills of oil and gas workers and identifying new roles, occupations and career pathways including successful strategies for skills training, certification and job placement, (2) creating report outs or presentations for workforce system meetings, webinars, conferences, CoPs, or trainings, (3) disseminating best practices and other lessons learned to the broader workforce system through a combination of written materials, webinars, trainings, and/or CoPs open to Local Workforce Development Areas, community-based organizations, and other workforce system stakeholders, (4) providing a final report that summarizes program development and implementation, best practices, learnings and program modification, program outcomes and results, and (5) providing recommendations for similar future projects and best practice framework for supporting the successful transition of fossil fuel workers into other work settings and occupations.

B. Applicants

Applicants for the DOGWF ETA must be organizations with the capacity, relationships, and expertise to deliver ETA to grantees across the state. Proposals from non-profit or for-profit consulting, technical assistance, evaluation, capacity-building organizations, labor organizations, community colleges, adult education providers, workforce boards, and education and training providers will be accepted. Applicants may collaborate with partners or form a team to provide the full scope of TA and evaluation for the DOGWF Fund. Individuals are not eligible to apply. Applicants must reside in the US but do not need to reside in California; however, they must have experience working with dislocated workers and demonstrated capacity to provide technical assistance in California.

C. Target Populations

The ETA services for this grant will support the four organizations in the service counties listed below that were awarded program grants under the DOGWF PY 23-24 SFP.

Project List

Applicant Name	County
Kern/Inyo/Mono Consortium Workforce Development Area – Kern County Employers' Training Resource	Kern
Steelworkers Charitable and Educational Organization	Contra Costa, Kern, Los Angeles, and San Luis Obispo
Inter-City Services, Inc.	Contra Costa
Workforce Development Board of Contra Costa County	Contra Costa

The ETA awardee will be responsible for meeting with entities in multiple locations to ensure comprehensive support and collaboration for the effective implementation and evaluation of the program. The DOGWF program targets two groups of oil and gas workers from various settings and roles: (1) DOGWF Core Workers, which includes workers with frontline occupations unique to the industry, and (2) DOGWF Core Adjacent Workers, which includes (A) frontline occupations common in the oil and gas industry, including but not limited to construction, installation, maintenance, repair, production, and transportation occupations; and (B) clerical and administrative support staff, excluding executive, management, or any other professional occupation related to the industry. The ETA provider will customize consultation, training, and support to the needs of different program awardees. The ETA awardee must be prepared to offer support and resources tailored to this population's unique needs and challenges.

D. Data and Supporting Evidence

The ETA awardee is expected to develop assessment tools for collecting real-time data and analyzing the program's performance. This analysis should adopt a learning approach that facilitates informed decision-making, enhancing outcomes and amplifying the program's impact on its target populations. Program awardees will report participant data in CalJOBSSM, accessible to the ETA awardee for ETA purposes. The ETA awardee will be responsible for collecting additional data and information on implementation milestones and qualitative outcomes that are not captured in CalJOBS or monthly narrative reports submitted to EDD by project awardees if that additional data is required to meet assessment goals.

All program awardees must provide data and information to the ETA awardee that is necessary to conduct ETA activities. Proposals should clearly articulate the data metrics, the frequency of data collection, and the method of analysis to be used. The EDD reserves the right to request a review of any assessments created using funds from this project. Data from assessments developed and administered to evaluate projects should directly inform and apply learnings

from that evaluation to improve overall service delivery and help refine the evaluation plan and the final report.

III. Application & Program Requirements

All proposals must adhere to proposal requirements, utilize the required format, and include all requested information and attachments, or the proposal will be deemed non-responsive. Proposals that do not meet the minimum requirements will not be scored or considered for funding. Refer to *Appendix A: Proposal Package Instructions* for guidance on properly completing, formatting, and submitting all elements of the proposal package.

- I. Technical Assistance and Developmental Evaluation Plan (60 pts.)
- II. Statement of Capacity and Capabilities (30 pts.)
- III. Budget Summary Narrative and Plan (10 pts.)

B. Program Requirements

Partnerships

Applicants must possess the expertise, resources, and capacity to provide Technical Assistance to DOGWF program awardees and to conduct a developmental project evaluation. Given the project's complexity, applicants may benefit from incorporating partnerships into ETA plans to achieve all objectives and required activities, enhance the support network, and increase the likelihood of successful program outcomes.

Partnerships with established DOGWF programs that have demonstrated the ability to provide meaningful assistance to displaced oil and gas workers are also encouraged. Applicants should prioritize partnerships with organizations that have documented success working with the program's target populations or expertise in an area beneficial to the scope of the ETA requirements, as well as organizations that have demonstrated success and innovation in developmental evaluation.

In the Project Narrative, applicants must demonstrate their ability to deliver ETA as a single organization or project team, identifying any project partners. Applicants must submit Partnership Agreement Letters if partnerships are proposed and outline each partner's roles and expected contributions. More information on submitting Partnership Agreement Letters can be found in *Appendix A: Proposal Package Instructions*. The EDD's reading evaluators will assess whether applicants have the necessary capacity and expertise to provide the required ETA and will select the most qualified applicant. Additional partnerships that can enhance the success of program awardees, based on the needs of the target populations in each geographic region, are encouraged.

Collaboration with the EDD

Applicants must budget for and plan to coordinate and facilitate three in-person and/or virtual convenings throughout the grant period to bring together state partners and awardees. These convenings will occur as follows:

- Within the first six months of implementation
- At the program's mid-point, and
- In the last two-quarters of their project

Timing will be determined in coordination with state partners and DOGWF ETA awardees. The convenings aim to develop a nuanced, big-picture perspective on overcoming the barriers to employment the target populations face. Agendas and programs for convenings will be developed in coordination with the EDD to include support on topics related to grant administration, performance, and CalJOBS, in addition to the programmatic and subject matter content provided by the ETA awardee.

The EDD requires all key project staff to attend mandatory meetings. Key project staff may also be required to collaborate with EDD Project Managers throughout the TA grant's period of performance, including CalJOBS training and guidance during start-up and implementation. See *Section VII. C: Administrative Requirements, Fiscal Requirement and Reporting* for more information.

The ETA awardee must coordinate and facilitate CoP and partner meetings. The CoP meetings will allow the ETA provider to share knowledge and network with program awardees, workforce experts, partners, the EDD, and other key stakeholders. The meetings will enable program awardees to engage with innovative ideas and promote new project implementation methods.

IV. Funding and Budgetary Requirements

Awarding decisions are based on the availability of funds. Estimated amounts and dates are not final and are subject to change.

A. Availability

A total of \$1 million in California State General Fund for the DOGWF ETA is available through this SFP. It is anticipated that only one application will be awarded. Leveraged resources are encouraged where possible, but there is no requirement for leveraged funds. Determination of funding requests and other performance measures should consider demonstrating successful TA plans, relevant experience, and reasonable costs for proposed services. Awarding decisions are based on the availability of funds.

Note – Proposed funding is based on the anticipated availability of relevant funds. Should anything change, the EDD reserves the right to adjust based on the level of funding. Estimated amounts and dates are not final and are subject to change.

B. Project Term

The period of performance (POP) for the ETA awardee funded under this SFP will be approximately 27 to 30 months. Program awardees that the DOGWF PY 23-24 SFP financed and the DOGWF ETA PY 23-24 awardee will support have an anticipated program start date of November 1, 2024, so the ETA provider will begin work as soon as contracts are executed, anticipated to be by January 1, 2025. Projects will conclude no later than March 31, 2027. This POP includes all necessary implementation and start-up activities. Grant funds will not be available beyond March 31, 2027. No obligation of funds will be allowed before or beyond the grant period of performance. Any funds not expended during the grant agreement period shall be returned to the state.

C. Registration with the System for Award Management

Applicants must register with the System for Award Management (SAM) to apply for and receive funding for this initiative. Registration with the SAM must be reviewed and updated

every 12 months to remain current, accurate, and complete in the SAM database. A recipient must maintain active registration with current information during which it has an application under consideration or an active state or federal award, including state and federal funding distributed through the EDD. Applicants must ensure this information is updated well before submitting a funding application. Proposals received with an inactive registration will not be evaluated or disqualified.

Note – The registration and/or renewal process can take several weeks to complete and requires privileged information, including financial and banking information, which may take time to obtain. The applicant must have all information up to date and accessible through the SAM before submitting the application. Visit the [SAM website](#) for more information about registration requirements.

D. Cost Sharing

There are no required leveraged funds for this project. However, the applicant is encouraged to leverage other resources to maximize the project's impact, earn the maximum return on investment, and foster project replication and sustainability. Applicants are encouraged to braid funds, leverage human capital, and utilize other resources to maximize the project's success. Resources can be leveraged from a variety of sources, including but not limited to businesses, industry associations, labor organizations, community-based organizations, education and training providers, and/or federal, state, and local government programs.

Leveraged funds are a contribution of funds or resources made available to the grantee to be explicitly used for project activities and must be consistent with the allowable activities of the fund sources. The awarded grantee has control over and disburses these funds. The definition of “in-kind resources” is a contribution of non-cash resources explicitly used for project activities. Examples include but are not limited to donated personnel, services, and use of equipment or space.

E. Allowable Uses of Funds

The funds awarded in this SFP must provide ETA to DOGWF PY 23-24 program awardees in successfully implementing their DOGWF projects and conducting ongoing and final evaluations of the DOGWF program.

Allowable costs for the ETA grantee include the following:

- Any costs associated with providing ETA to DOGWF program awardees include but are not limited to personnel, materials, travel, and virtual platforms.
- Any costs associated with coordinating project partners and stakeholders, including collaboration with other EDD and external programs, will enhance learning objectives, project performance, and opportunities for co-enrollment for program awardees. Associated costs may include but are not limited to personnel, materials, travel, and virtual platforms.

- Any costs associated with ongoing information and data collection and evaluation activities.
- Any costs associated with creating a final evaluation of project outcomes and lessons learned.
- Costs associated with disseminating or sharing lessons learned and/or a final evaluation during the contract period.

The California State General Fund and its associated state regulations, state directives, applicable Government Codes including but not limited to 16300 and 13303, and California Department of Finance (DOF) Guidance for Grants and Agreements govern the use of the grant funds. Refer to *Appendix C: Allowable Costs*, and *Appendix D: Administrative Costs* for the general requirements dictating the proper use of these funds. Funds awarded under this SFP cannot be used to purchase real property or to construct buildings.

F. Administrative Cost Limits

A maximum of 10 percent of the total requested grant amount will be allowed for administrative costs. Please refer to *Appendix D: Administrative Costs* for the definition of administrative costs.

V. Submission

Only one proposal will be accepted from each applicant. If the EDD receives more than one application from a single applicant, the first application received will be the only one accepted. Any subsequent submissions will be disqualified. **The entire proposal must be submitted electronically by the deadline.**

Refer to *Appendix A: Proposal Package Instructions* for further guidelines on electronic submission and *Section VI. D: Award, Agreement and Contracting* for the signatory authority requirements for the Subgrant Agreement (contract).

VI. Award

After the deadline, the EDD will review the proposals that meet the minimum qualifications. Funding decisions are based on scoring criteria, performance history, and area needs. The EDD will notify all applicants regarding the status of submitted proposals. A summary of projects funded under this SFP will be posted on the EDD website.

A. Proposal Review, Scoring, and Evaluation

Teams of independent reviewers will score, and rank proposals based on the criteria outlined in this SFP; for those organizations that have participated in past grant programs administered by the EDD's Workforce Services Branch (WSB), past and present performance will be considered in making funding decisions. The scoring value of each section of the SFP is as follows:

Figure 3: Scoring Rubric

Narrative Criteria	Maximum Points
Section I – Technical Assistance Plan	60
Section II – Statement of Capacity and Capabilities	30
Section III – Budget Summary Narrative and Plan	10
Maximum Total Points	100

Only proposals that score in the top tier, are deemed meritorious, and are aligned with the state's best interests will be recommended for funding. The EDD reserves the right to conduct on-site reviews before making final funding recommendations. After completing the evaluation process, the EDD Director will receive the funding recommendations. The Labor and Workforce Development Agency Secretary, in consultation with the EDD, will make final funding decisions based on the ranked scores and other factors such as past performance, innovative approach, and the uniqueness of each project.

Projects selected for funding are contingent on the revision and approval of the project exhibits. Project exhibits are not automatically approved. Awardees may be required to revise the project exhibits to comply with federal and state mandates. The EDD Special Initiatives Support Section will provide guidance should revisions be necessary.

B. Appeal Process

A proposal may be disqualified for not meeting the application requirements. Please read the SFP carefully and consult *Appendix A: Proposal Package Instructions* for detailed instructions on adequately completing and submitting all application elements to ensure all applicable requirements have been met.

Disqualification decisions can be appealed, but disqualifications can only be overturned in specific instances. Please take into consideration the following:

- There is no appeal process for not meeting the proposal submission deadline.
- Final funding decisions cannot be appealed.
- The application requirements are those conditions that must be met for the proposal to be forwarded for evaluation and scoring. See *Section IV: Funding and Budgetary Requirements, Section V: Submission, Section VI: Award, and Appendix A: Proposal Package Instructions* for more information on application and submission requirements.

The EDD will distribute disqualification letters to applicants by email. Applicants have seven calendar days from the date their disqualification email is received in which to appeal. Please send all appeals to WSBSFP1@EDD.ca.gov by 3:00 p.m. PT on the seventh calendar day.

Each appellant must submit all the facts related to their appeal **in writing**. The review will be limited to the information provided in writing. To be considered for review, the appeal must contain the following information:

- Appealing organization’s full name, address, and telephone number

- A brief statement of the reasons for the appeal, including citations from the SFP and other pertinent documents.
- A statement of the relief sought.
- All corrective documentation
- A scanned copy of the statement with the original wet signature of the authorized signatory authority for the applicant organization
- Appeals must be submitted in PDF form to WSBSFP1@EDD.ca.gov

The WSB/DDO will respond to all appeals via email. The review of each appeal will be limited to determining whether the applicant's corrective actions successfully addressed the non-responsiveness indicated in their disqualification letter and whether the proposal now meets the minimum application requirements relayed by the SFP to be evaluated.

C. Award Notification

Awards will be announced on the EDD website, and applicants will be notified of the funding decisions. Award decision notices are anticipated to be emailed in the month of August 2024.

D. Agreement and Contracting

The EDD will contact the awardee to negotiate and finalize contract details. The EDD may request that the contracts incorporate changes to the original project proposals. After the contract is finalized, the awardee will officially enter a contract with EDD to provide the services listed in the contract for the amount awarded. Any unauthorized deviation or non-responsiveness may be grounds for breach of contract with legal repercussions. Please ensure that the contract goals and objectives are feasible and reasonable for your organization and that your infrastructure supports the administrative and operational requirements. The state expects contract negotiations to begin immediately after providing official award notices. A Notice of Award does not automatically entitle the grantee to funding. The EDD reserves the right to terminate any funding offer if a grantee does not negotiate in good faith. Awardees are advised to consider whether official action by a County Board of Supervisors, City Council, or other similar decision-making body will be necessary before accepting funds awarded under this SFP. The time needed for such official action will affect the grantee's ability to meet the project terms and conditions and the projected work plan.

All projects selected for funding are contingent upon the revision and approval of the contract exhibits. Project exhibits are not automatically approved. Grantees may be required to revise the project exhibits to comply with applicable federal and state mandates during the approval and contract negotiation process. The Special Initiatives Support Section will guide the finalization of the exhibits and verify that all requirements are met to be incorporated into the official contract. The awardees must submit a resolution for signatory authority designating the position's authority to sign for the organization. The EDD reserves the right to rescind any funding offer if a grantee does not comply with the contract's revision process and terms.

VII. Administrative Requirements

Successful applicants must comply with all administrative and reporting requirements to remain eligible for awarded funds. Grantees that do not comply may be de-obligated.

A. Monitoring and Audits

During the performance period, grantees will be monitored and/or audited by the state in accordance with existing policies, procedures, and requirements governing the use of funds. Grantees are expected to be responsive to all reviewers' requests, provide reasonable and timely access to records and staff, facilitate access to subcontractors, and communicate with reviewers promptly and accurately. Complete and accurate reporting is essential during the monitoring process.

B. Record Retention

Grantees will be required to maintain project and fiscal records sufficient to allow state and local reviewers to evaluate the project's effectiveness and proper use of funds. The record-keeping system must include both original and summary (computer-generated) data sources. Grantees will retain all records pertinent to the grant contract for a period of five years from the date of the final payment of the contract unless a more extended period of record retention is stipulated.

C. Fiscal Requirement and Reporting

The grant is a cost-reimbursable contract. The grantee must submit invoices and supporting documentation to receive reimbursement for expenditures incurred. The grantee must maintain a ledger that shows the total amount of funds available for the program and monthly program deductions (i.e., payments to subcontractors). At a minimum, each ledger entry must include the subaward agreement number, invoice date, payment date, and payment description. Individual divisions may require additional ledger information. Applicants must indicate the accounting platform they propose to use.

Additionally, the grantee will prepare and submit monthly financial and quarterly expenditure reports, or as requested, in formats prescribed by the EDD. The grantee must establish, manage, and maintain an appropriate system of internal controls, accounting records, and documentation of the receipt and disbursement of the funds for review or reproduction upon written request by the EDD according to Generally Accepted Accounting Principles, other state regulatory requirements, and the direction of the EDD.

D. Closeout

The closeout period is the 60 days after a grant agreement has reached its term end date or its funding has been fully utilized. During this period, the grantee submits a closeout package to the state, and the state confirms that the grantee has completed all applicable administrative actions and required work. The closeout period is a critical piece in the cycle of a grant. It is used by the grantee to liquidate remaining obligations and to prepare and transmit final fiscal

and program documents. Closeout documents and an end-of-project narrative closeout report will be required 60 days after the end of the grant term. Applicants should include costs associated with closeout activities in the budget plan.

E. Compliance

All funds are subject to their related state statutory and regulatory requirements. The EDD is responsible for evaluating each grantee's risk of noncompliance based on a set of common factors. These risk assessments may include experience managing state general funds and regulatory requirements, previous audits, personnel, and policies or procedures for award execution and oversight. Ongoing monitoring of any given grantee should reflect its assessed risk and include monitoring, identification of deficiencies, and follow-up to ensure appropriate remediation.

F. Intellectual Property Rights/Creative Common Attribution License

Grantees of a state award obtain the title to intangible property once acquired. The grantee must use the property for the authorized initial purpose and must not encumber the property without approval from the California Labor and Workforce Development Agency (Agency). Further, the Agency has the right to obtain, reproduce, publish, or otherwise use the data produced under a state award and authorize others to receive, reproduce, publish, or otherwise use such data for state purposes.
