## I. Introduction

The State Information Data Exchange System (SIDES) is a secure and timely way for employers and third party administrators (TPAs) to electronically receive and respond to the Employment Development Department's (EDD) [Notice of Unemployment Insurance Claim Filed](#) (DE 1101CZ).

SIDES was developed through a strategic partnership between the U.S. Department of Labor (USDOL), the National Association of State Workforce Agencies (NASWA), and state unemployment insurance (UI) agencies to streamline communication between employers/TPAs and the EDD, reduce errors that are common with paper forms, and provide employers with a standardized format to ensure that the required information is communicated to the EDD.

California only participates in the exchange of separation information. Employers and TPAs will be able to respond electronically to the DE 1101CZ. Other exchanges, including earnings verification and monetary and potential charges, may become available in the future.

SIDES does not eliminate the paper *Notice of Unemployment Insurance Claim Filed* (DE 1101CZ and DE 1101ER) notices. If new or reopened claims are processed through ways that are not connected to the SIDES database, a paper DE 1101CZ or DE 1101ER form will be mailed out. This request will not be available in SIDES E-Response. You will need to complete and mail the paper form within 10 days from the mail date.

SIDES E-Response is designed for employers and TPAs with a lower volume of UI claims and does not require any special programming or software. To learn more about SIDES, visit the [SIDES](#) homepage on the EDD website.

**Note:** This guide provides information specific to the EDD's single-sign-on process and is considered a supplement to the SIDES E-Response guide that is on the National UI SIDES Website at [http://info.uisides.org/pubdocs/E-Response\\_User\\_Guide\\_Sep\\_Info.pdf](http://info.uisides.org/pubdocs/E-Response_User_Guide_Sep_Info.pdf).
